C Level 3 - Problem – 2

Instructions:

1. Do not discuss with any one while solving the problems
2. Do not use internet while solving the problems
3. Do not use books while solving the problems
4. Do the problems on paper/note book first.
5. Do not try to copy from others
6. Do the problems in an easy way.

```
*****
#include <stdio.h>
int function(int no);
int main()
{
    int number1, number2;
    scanf("%d",&number1);
    number2 = function(number1);
    printf("%d",number2);
    return 0;
}
int function(int no1)
{
    int no2;
    // Your Program Here
    return no2;
}
*****
```

Question: *Get a number from user and subtract 5 to that number and print the result. Write your code inside the function. Do not Change the format.*

Example: *Input :45 Output 40. Input:56789 Output:56784*
