C Level 3 - Problem – 5

Instructions:

1. **Do not discuss with any one while solving the problems**
2. **Do not use internet while solving the problems**
3. **Do not use books while solving the problems**
4. **Do the problems on paper/note book first.**
5. **Do not try to copy from others**
6. **Do the problems in an easy way.**

****

```c
#include <stdio.h>
int find_no_of_zeros(int no);
int main()
{
        int number,result;
        scanf("%d",&number);
        result = find_no_of_zeros (number);
        printf("%d",result);
        return 0;
}
int find_no_of_zeros (int no)
{
        int result;
        // Your Program Here
        return result;
}
```

****

Question: **Get a number from user and count the number of zeros in that number and print. Write your code inside the function. Do not Change the format.**

Example: **Input: 100 Output: 2 . Input: 1060030 Output: 4.**
