3. **Do not use books while solving the problems**
4. **Do the problems on paper/note book first.**
5. **Do not try to copy from others**
6. **Do the problems in an easy way.**

****

```c
#include <stdio.h>
int check_assending(int no);
int main()
{
        int number1, number2, result;
        scanf("%d",&number1);
        scanf("%d",&number2);
        result = check_assending(number);
        if(result == 1)
                printf("Yes");
        else
                printf("No");;
        return 0;
}
int check_assending(int no)
{
        int result;
        // Your Program Here
        return result;
}
```

****

Question: **Get a number from user and check whether the digits are in ascending order.**

Example: **Input: 1234 Output: Yes. Input: 5687 Output: No**
